

# Master Index

- First Lines are listed in upper and lower case letters. TUNE NAMES and SONG TITLES are listed in all UPPER CASE (CAPITAL) letters.
- Some entries may be repeated with different reference numbers. This usually indicates that either the musical arrangements of these tunes were sufficiently different to justify separate recordings, or they are distinctly different tunes.
- Naming discrepancies between hymn books can result in a tune being listed more than once (with different reference numbers) even though each number produces the same musical result.
